

Trading Signals. Faster, More Predictive Truthful

Built on Trusted Verifiable Real-Time Economic Data

Why Truflation?

Inflation is the single most important economic indicator.
It hasn't changed in 100 years and it's manipulated.

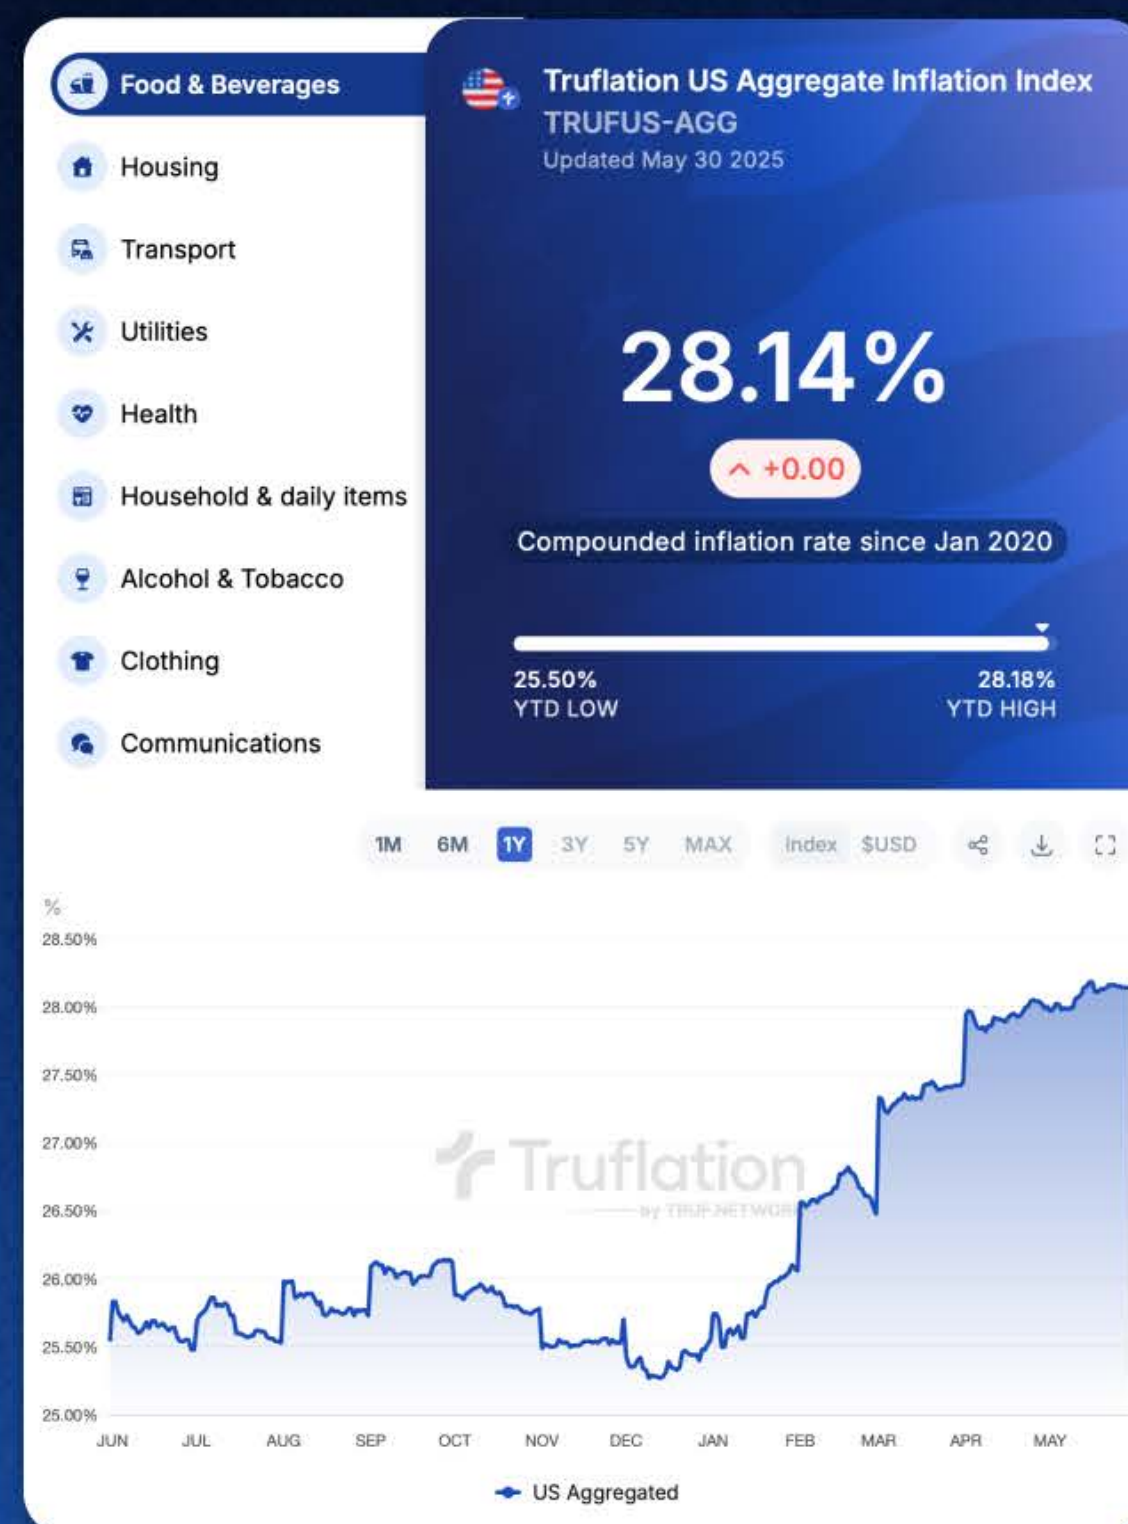

We fixed the signal. Now the world listens.

Our Solution

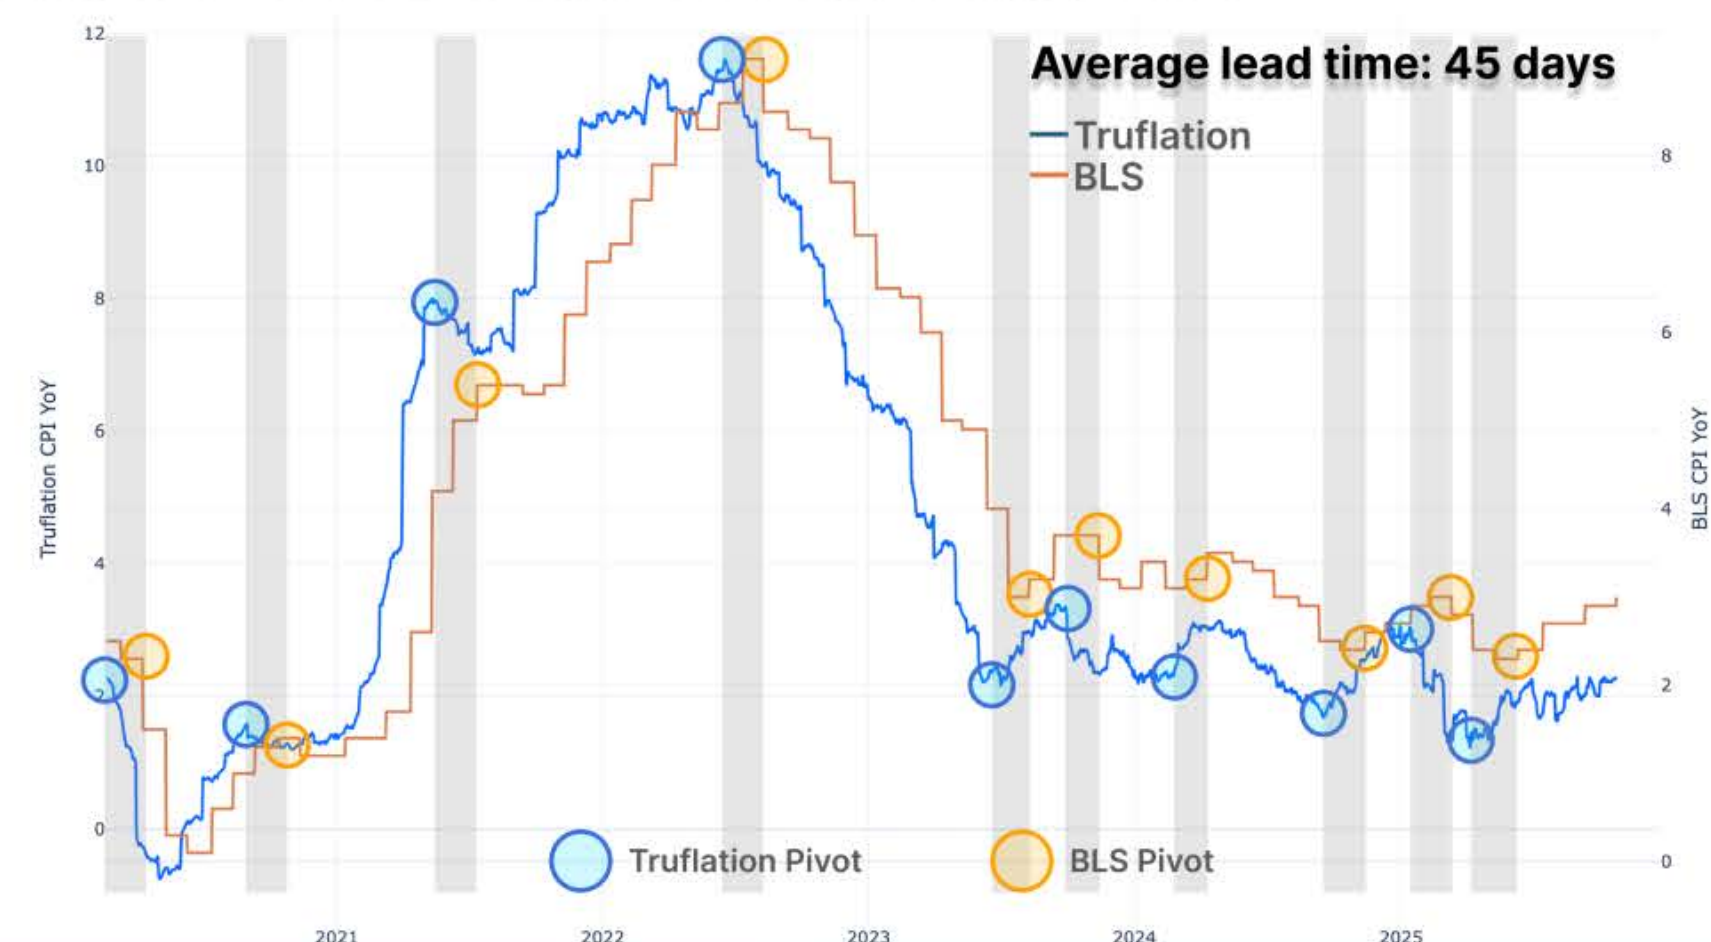

Real-time, independent
economic and inflation data

Why it works

45-day lead time and 99.91% accuracy

Guesswork replacing measurement

Data integrity is in free fall

This is the same Bureau of Labor Statistics that overstated the Jobs Growth in March 2024 by approximately **818,000** and, then again, right before the 2024 Presidential Election, in August and September, by **112,000**. These were Records — No one can be that

Data manipulation? Or "defective" mechanisms for compiling statistics?
The revision of the **employment data erased 911,000** with the stroke of a pen.

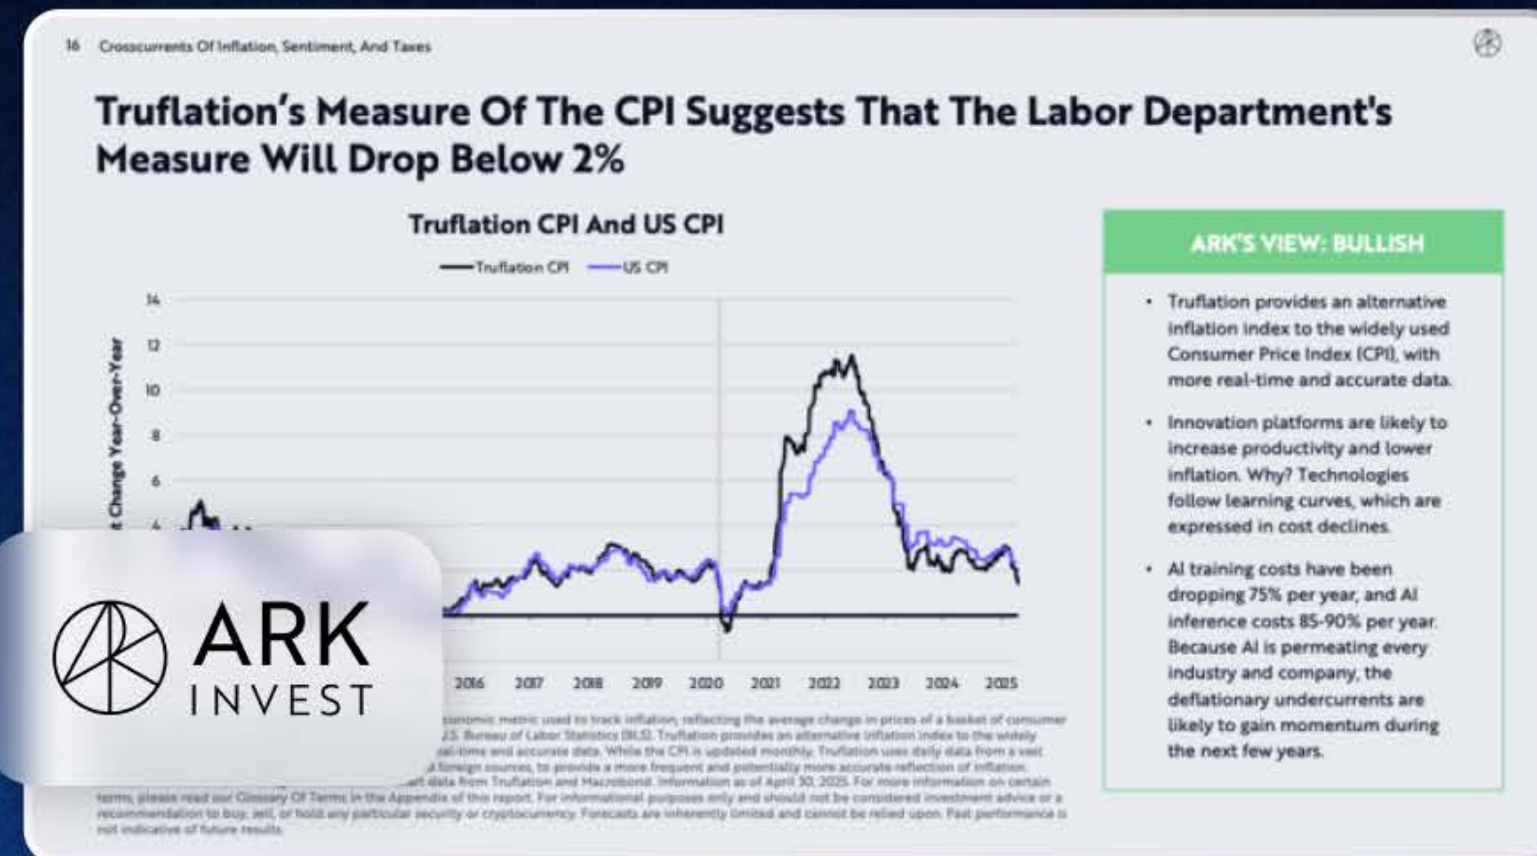

The Bureau of Labor Statistics (BLS) collects employment data in two separate surveys:

Politically motivated manipulation
